

## Mini Trello

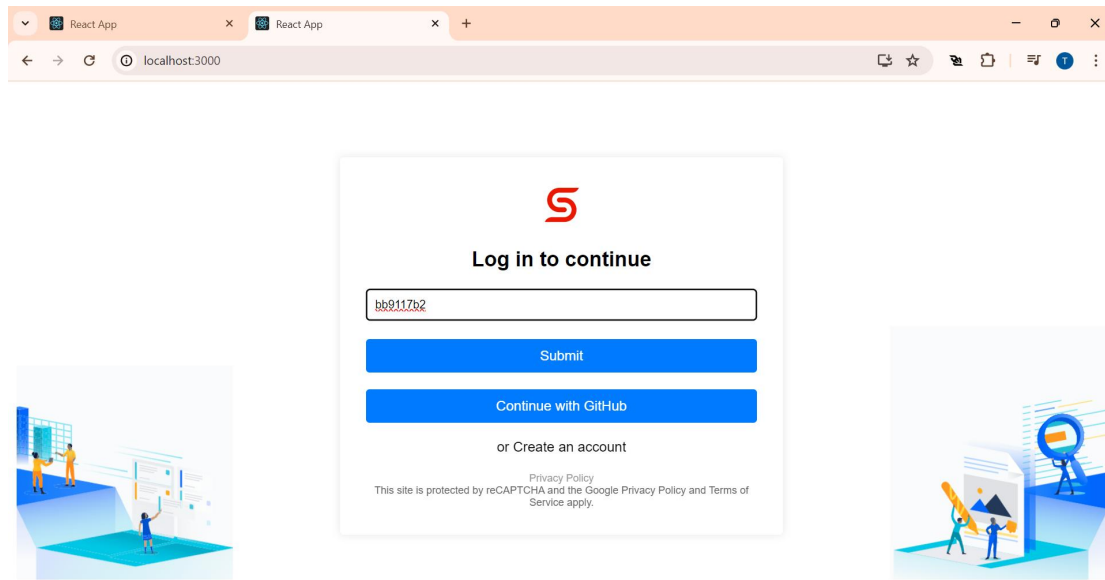

### 1. SignIn

- Input email to get verification code

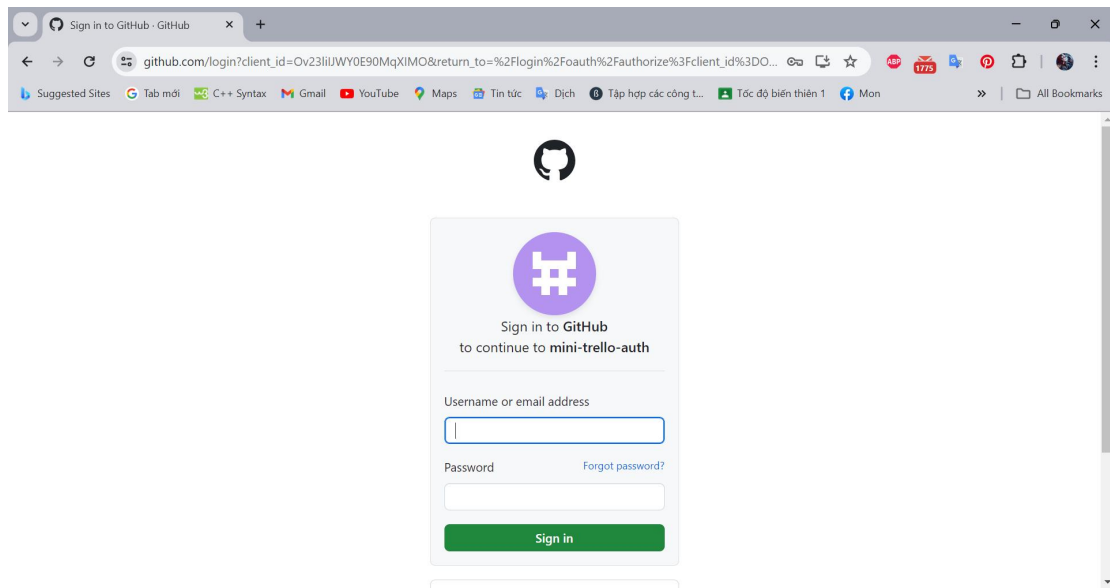

A screenshot of a web browser displaying the login page of a React App running on localhost:3000. The page features a central white card with a red 'S' logo at the top. Below the logo, the text 'Log in to continue' is displayed. A text input field contains the email 'ho2ngtlong@gmail.com'. Below the input field are two blue buttons: 'Continue' and 'Continue with GitHub'. Underneath these buttons, the text 'or Create an account' is visible. At the bottom of the card, there is a link for 'Privacy Policy' and a disclaimer: 'This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply.' The page is flanked by two blue illustrations: on the left, two figures standing on a platform looking at a large screen; on the right, a figure holding a magnifying glass over a document.

Input your code and click Submit

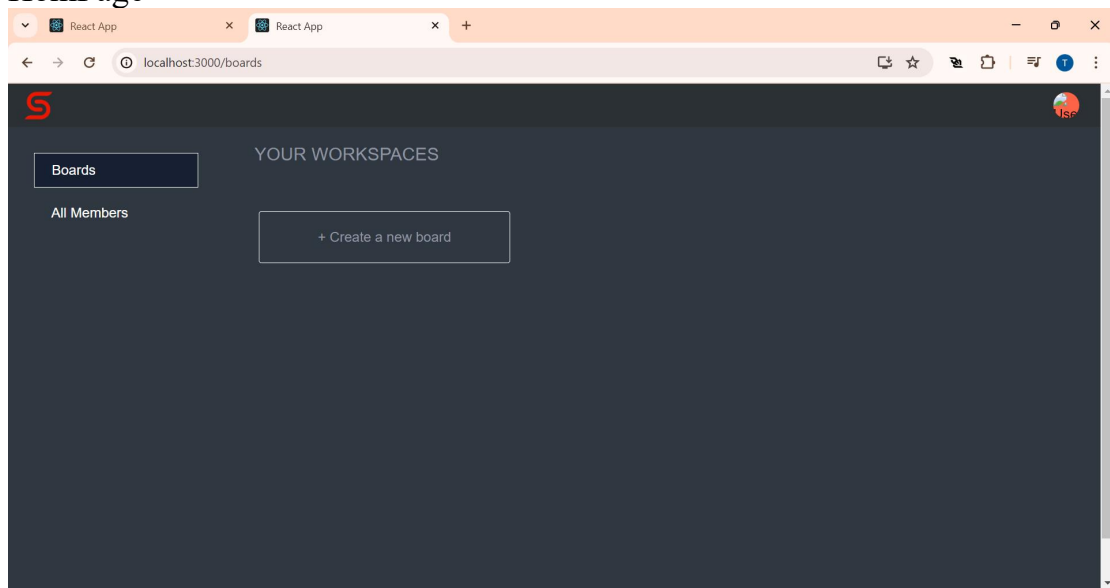

A screenshot of the same web browser displaying the login page. The text input field now contains the verification code 'bb9117b2'. The 'Continue' button has been replaced by a 'Submit' button, while the 'Continue with GitHub' button remains. The rest of the page, including the logo, title, and footer, remains unchanged.

SignIn with Github
